

COVID-19 Impact Dashboard

The COVID-19 Impact Dashboard gives PayDashboard users an account-wide view of the effect of Coronavirus on their payroll(s). Measuring and reporting on key pay metrics such as gross pay, sick pay and furlough, the dashboard allows clients to monitor and act on data insights in real-time as the payroll is run, without creating any additional reporting work for the payroll team.

KEY FEATURES

- Account-wide summary of key pay metrics - from changes in gross pay, to the total number of leavers and furloughed employees
- Data segmented by pay frequencies to allow like-for-like comparison and benchmarking of multiple payrolls
- Detailed breakdown per payroll, with insights on leavers, sick pay, furlough, gross pay change, and average pay per employee

BENEFITS FOR EMPLOYERS

- Proactively monitor the effects of Coronavirus on your workforce on one dashboard, even when operating multiple payrolls
- Real-time reports updated as soon as the payroll data is uploaded to PayDashboard
- Allow non-payroll staff to access these payroll insights without the payroll team running extra reports or granting access to the underlying payroll software
