

# COVID-19 Impact Dashboard

The COVID-19 Impact Dashboard gives PayDashboard users an account-wide view of the effect of Coronavirus on their payrolls. Measuring and reporting on key pay metrics such as gross pay, sick pay and furlough, the dashboard allows clients to monitor and act on data insights in real-time as the payroll is run, without creating any additional reporting work for the payroll team.

## KEY FEATURES

- Account-wide summary of key pay metrics across all payroll clients - from changes in gross pay, to the total number of leavers and furloughed employees
- Data segmented by pay frequencies to allow like-for-like comparison and benchmarking
- Detailed breakdown of the most affected clients with insights on leavers, sick pay, furlough, gross pay change, and average pay per employee

## BENEFITS FOR PAYROLL SERVICE PROVIDERS

- Proactively identify and engage with the most affected payroll clients who may require additional support or advisory services
- Better assess the impact of Coronavirus on your own payroll processing work across all payroll clients
- Improved ability to forecast processing capacity and billable work taking into account changes in numbers of employees and payslips processed
- Easy access to aggregated payroll insights for your wider team to engage with clients
